nit IT 3.7K230 LCD EVO

 LCD Display

A compact induction heater designed for automotive and industrial applications. With its plug-and-play functionality, easy handling, and advanced LCD controls, it provides a safe and precise heating solution for tasks such as loosening bolts, unlocking steering components, removing bearings, and straightening metal parts.

- Plug & play
- External cap for cooling liquid refill
- Easy Handling

- High efficiency with 3,7kW
- Case design and graphics
- LCD Keyboard

-  13 kg
-  Input power 3,7 kW - 16 A
-  Electrical connection IEC60309 230V/1PH+T 50
-  Duty cycle 9 min* (* ± 5% Ambient temperature at maximum power)

-  IP21 protection rating
-  Fuse protection
-  2 L tank - Liquid cooling system
-  Hydraulic heat exchanger with fan

-  Frequency level 15-30 kHz
-  2.6m Power cable
-  500x250x280h mm
-  710x410x610h mm

REF IT37K230

nit IT4K230

 LCD Display

High-performance heat inductor designed for industrial and automotive applications. It uses electromagnetic induction to quickly and safely heat metal components, making it ideal for tasks such as loosening seized bolts, removing bearings, bending metal, and straightening parts.

- Power level setting (kW)
- Multiple system temperature indicators (°C/°F)
- Keyboard (User friendly LCD panel)
- Long inductor cable (3.0 m)
- Plug and Play

-  400x340x830h mm
-  800x800x1280h mm
-  50 KG
-  Input power 3,7 kW - 16 A
-  Electrical connection IEC60309 230V/1PH+T 50
-  Duty cycle 15 min* (* ± 5% based on 20°C room temperature @ max power)

-  Working frequency 15-30 KHz
-  2.6 mt Power cable
-  IP 21 Degree of protection
-  Fuse protection
-  20lt tank - Liquid cooling system
-  Hydraulic heat exchanger with fan

REF IT4K230

The CORGHI EXACT LINEAR PLUS is a professional-grade wheel aligner. It features a large, adjustable arm with a camera at the end, a central control unit with a monitor and keyboard, and a sturdy base. The background is a dark, stylized image of a road at night with light trails.

A2025

- 13-26" wheel capacity
- Fits car, SUV, van & motorcycle wheels (adapters included)
- Adjustable bead breaker, pneumatically-tilting column
- Extractable pedal control; fast, ergonomic design
- Single- or two-speed drive (TI option available)
- Compatible with SP300 / SP2300 assist arms
- 2-year warranty

PROADAS

FOR TESTING AND CALIBRATING DRIVER ASSISTANCE SYSTEMS ON MULTI-BRAND VEHICLES

The universal modular system developed for checking and calibrating driver assistance systems, verifying alignment and the full wheel alignment service (optional) on multi-brand cars and commercial vehicles. Equipped with a 75" screen for the DIGITAL reproduction of the camera calibration panels. The 1:1 digital reproduction allows you to comply with the vehicle manufacturer's specifications. Thanks to digitization implementation workshop space can be saved and new panels can be available more quickly. Compatible with Official OEM and Multi-brand Diagnosis.

Ergonomic "everything within reach" working position: thanks to its design, the operator makes all the adjustments without moving.

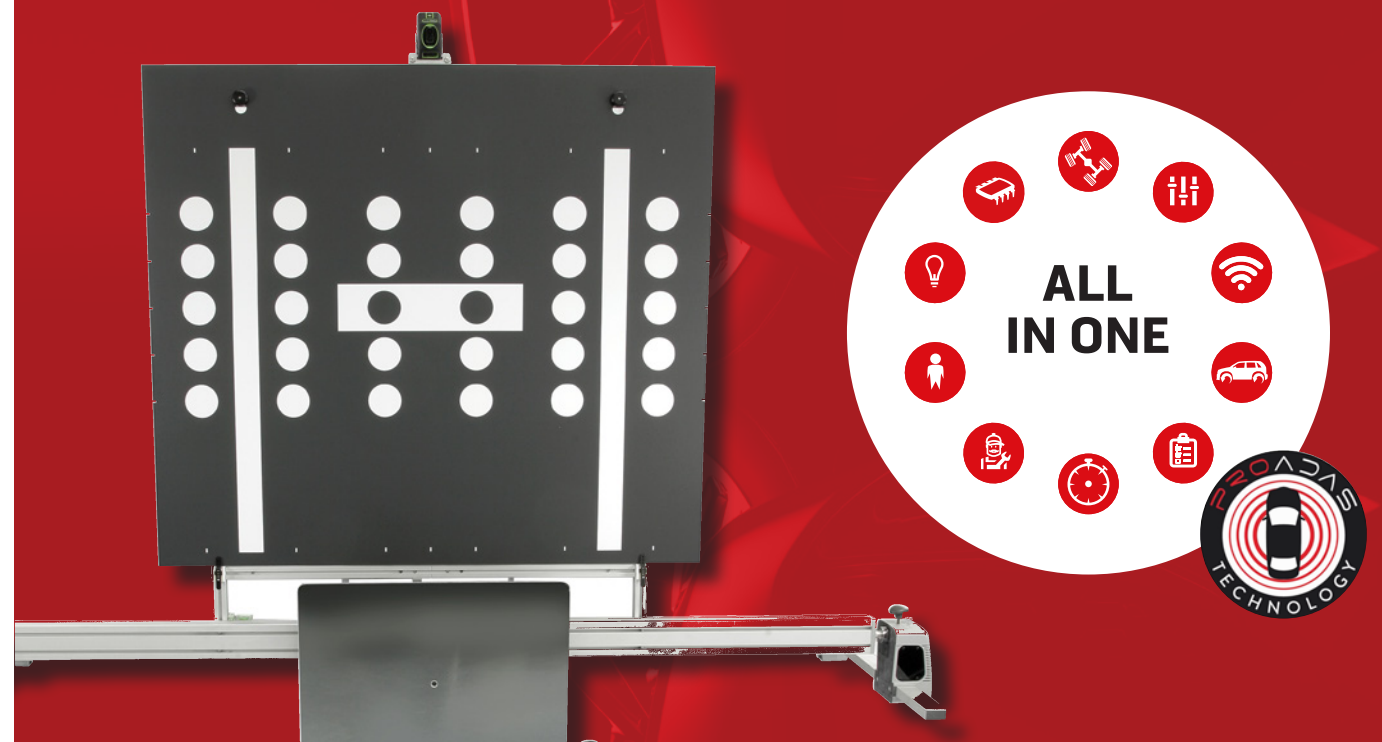

Error-proof. The software contains the preloaded positioning values. It displays the point where it is and guides the system in its operations.

PROADAS is compatible with Corghi wheel aligners:

- 3D camera wheel aligners
- CCD wheel aligners

ERG PRECISION BRAKE DISC GAUGE

- CNC-machined aluminium for durability and precision
- Metric scale engraved for quick, accurate readings
- 45mm working range covers most standard brake discs
- Compact design fits easily in tool drawers or carry kits
- Smooth sliding gauge with easy calibration mechanism

KEEPS OPERATORS
SAFE DURING
HEAVY LIFTS

Jacking a vehicle or working beneath one might seem routine, but the risks are anything but minor. Whether working in the workshop or out on the road, tyre technicians face serious hazards if proper precautions aren't followed and it is crucial to select the right equipment to adhere to safe working practices.

Grabs the jack from below the vehicle
